

# Business Intelligence Implementation Proposal for GL Retail Corporation

## About GL Retail Corporation

- Retail company with a head office location and 5 retail stores
- Operating successfully for several years
- Data driven approach to turn good performance into great

## Tasks Outlined

- Automate and visual current reporting integrity
- Improve efficiency and reporting
- Develop new insights to provide a competitive advantage

## Project Scope

### AR & AP Ageing Reports (Currently time consuming to create and update)

- Data from multiple sources
- Data manually adjusted
- Replicate current format

### Financial Statements (Automating statements would greatly improve efficiencies)

- Use reliable database
- Need high level summary
- Visualize financial ratios

### Sales & Inventory (Some products and categories are misallocated in reporting)

- Some data issues
- Used by Multiple Teams
- Analyse Product & Category

## Financial Intelligence Components

### Income Statement (Statement of Operations, Profit and Loss Statement)

- Over Reporting Period
- Revenues
- Expenses
- Profit or Loss

### Balance Sheet (Statement of Financial Position)

- Snapshot Report
- Assets
- Liabilities
- Equity

### Statement of Cash Flows (Cash Flow Statement)

- Over Reporting Period
- Operating
- Investing
- Financing

## Proposed Solution Approach

- A. Extract Data from Database - Azure Data Studio
- B. Create Data Model - Power Query
- C. Build Income Statement - Power BI
- D. Build Balance Sheet - Power BI
- E. Analyse in Excel - Excel
